

## WE'RE ECO RENTALS

We are a High-Quality provider of Rental Construction Equipment & Excavation Services.

#### MISSION

With the power of ECO's team of talented people and Construction Equipment Fleet, we are committed to provide our customers with Superb Value.

High-Quality Excavation Services & Construction Rental Equipment; Customized Job Sites Services and Superior Support that are available when and where you need them.

## FRICTIONLESS EQUIPMENT SERVICE

#### RENTAL EQUIPMENT

EXCAVATION / EARTH MOVING SERVICES

MECHANIC SERVICES

## RENTAL EQUIPMENT

- TELEHANDLERS
- BACKHOE
- MINI-MID EXCAVATOR
- SKIS STEER
- BOOM LIFTS
- SCISSOR LIFTS
- ROUGH TERRAIN
   SCISSOR LIFT

- GENERATORS
- LIGHT TOWERS
- CORE DRILL
- CABLE PULLER
- COMPACTORS
- ROLLERS
- ATTACHMENTS:
  AUGER, ROCK
  BUCKET, HYDRAULIC
  HAMMER

## EXCAVATION SERVICES

- Mini Excavator 3,000 7,000 Pounds.
- Mini-Mid Excavator 10,500 Pounds.
- Back Hoe
- Back Hoe with Fork Attachement
- Skid Steer
- Skid Steer with Auger 12" 18" 24"
- Skid Steer with Pallet Forks
- Skid Steer with Hydraulic Braker Hammer
- Truck Services

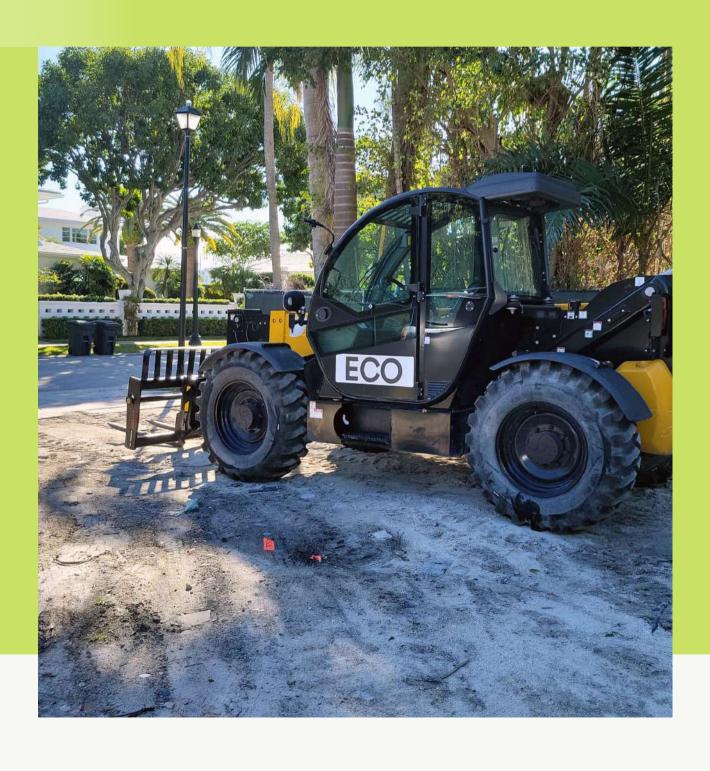

## MECHANIC SERVICES

Insurance and Certified

ECO provides mechanic services in our location and at the job site.

We also offer to Pick up and drop-off the Equipment.

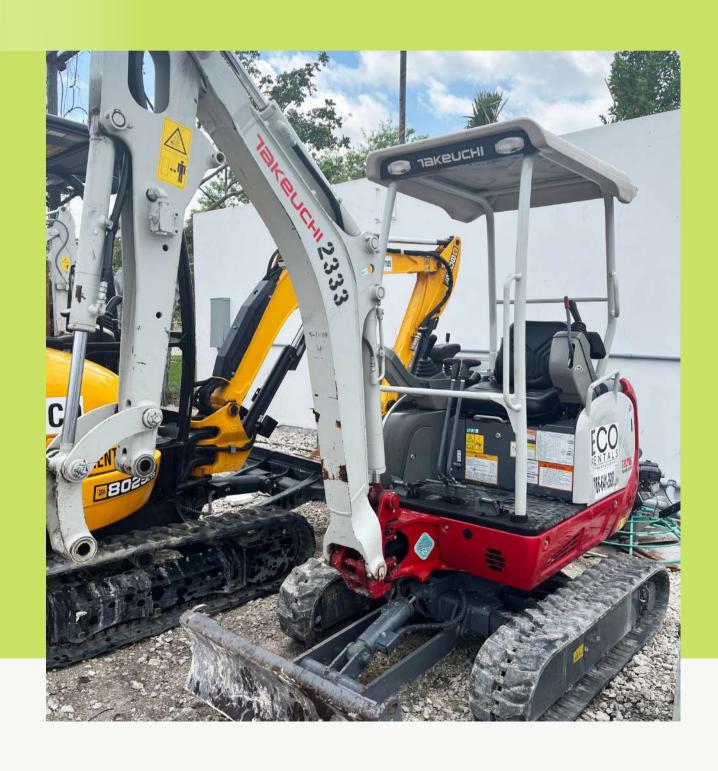

#### **TELEHANDLERS**

The telehandler is a truly versatile piece of equipment. The extendable boom and ability to use a variety of attachments give the telehandler many different applications.

- 5.5K 19' Outreach Non-Marking Tires
- 7.7K 32' Outreach
- 7.0K 42' Outreach Non-Marking Tires
- 9.0K 54' Outreach
- 10K 56' Outreach

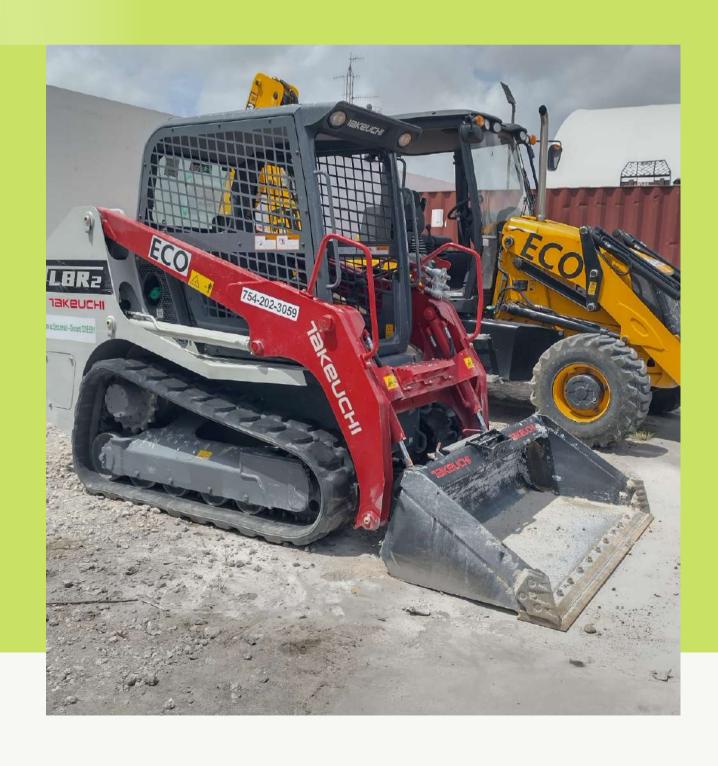

#### MINI-MID EXCAVATORS

- 3,500 Lbs. Mini Excavator
- 6,360 Lbs. Mini Excavator
- 10,500 Lbs. Mini Excavator

#### SKID STEERS

- 4,175 Lbs. Skids Steer
- 8,000 Lbs. Skids Steer 270 JCB
- 8,000 Lbs. TL8 Takeuchi
- 10,320 Lbs. TL10 Takeuchi

#### Request the attachment you need:

- Hydraulic Breaker Hammer EC60T
- Auger 12" 18" 24"
- Rock Bucket
- Fork Attachment

#### BACK HOE LOADERS

Backhoe loaders are versatile machines that combine excellent trenching, excavating, loading, lifting and material handling capabilities with the benefits of a single machine that is easy to maintain and simple to operate.

Excavator joystick controls are fit as standard, for ease-of-use, smooth controllability and improved

Request the Forks attachment if need it.

#### BOOM LIFTS

Boom lifts are engineered to enhance working efficiency and offer greater horizontal outreach than any other type of aerial platform.

- Boom Lift 34' Electric
- Boom Lift 34' Diesel
- Boom Lift 40' Straight
- Boom Lift 45' Articulated
- Boom Lift 50' Articulated
- Boom Lift 61' Articulated
- Boom Lift 64' Articulated
- Boom Lift 85' Straight

#### ELECTRIC SCISSOR LIFTS

A scissor lift is a machine made to move personnel and equipment in a vertical direction.

- Singla Mast Lift 20'
- Scissor Lift 13'
- Scissor Lift 26'
- Scissor Lift 32'
- Scissor Lift 40'
- Scissor Lift 45'

#### VERTICAL MAST LIFTS

• Are compact, low-weight machines that increase productivity on the job. Efficient operation and convenient setup these Genie Runabout lifts are ideal for warehousing, stock-picking, transporting, inventory management and general maintenance.

## FORK LIFTS 5,000 POUNDS.

Also called lift truck, jitney, fork truck, fork hoist, and forklift truck is a powered industrial truck used to lift and move materials over short distances.

## AIR COMPRESSORS 110 - 185 CFM

- The portable compressors in our range deliver the power to get the job done.
- Designed for demanding job sites, our compressors allow operators to run multiple hand tools and hammers at the same time for maximum efficiency.
- They're also ideal for sandblasting, irrigation blow-outs and general construction applications\*.
   With noise-reducing enclosures, straightforward controls and a low-maintenance design, they're built for reliable performance day in and day out.

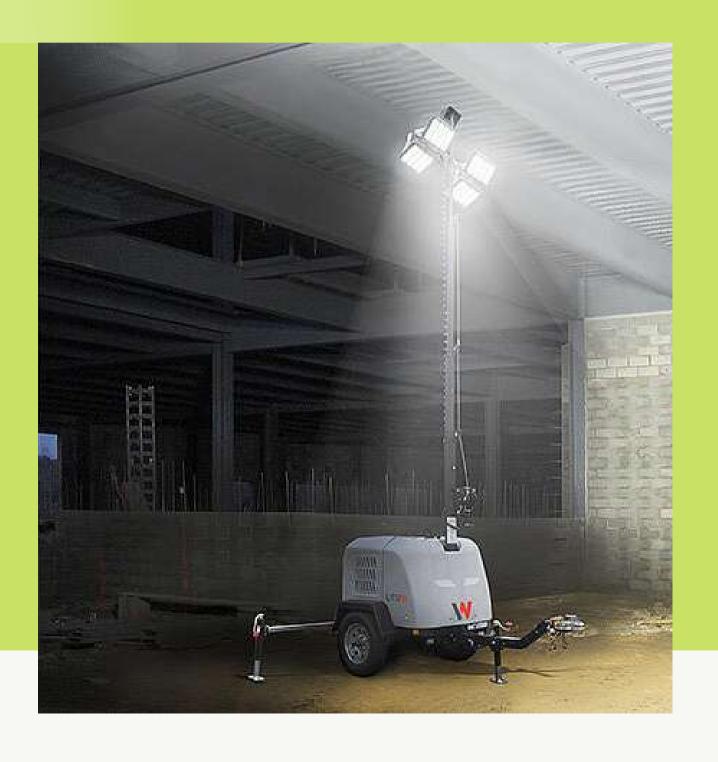

#### GENERATORS 25 - 45 KVA

- The generator delivers a lot of power in an innovative, easy to use and easy to maintain compact package.
- Chicago Pneumatic Power Technique (CP) has filled the gap in its generator lineup with the reengineered. The versatile generator range is designed to meet the tough demands of the construction, oil field and special event industries

#### LIGHT TOWER

• light towers combine the features and performance of traditional light towers in a small footprint. They are ideally suited for illuminating general job sites, site prep, concrete pours, specialty events, parking lots, road work and bridge work.

#### ROLLERS

- Small asphalt roller family.
- Drum, it's primarily used for small-scale compaction work such as pavements, cycle paths, small roads and small parking areas. The large drum diameter and drive motors connected in series contributes to excellent accessibility and hill-climbing capacity.
- Propulsion and vibration naturally come as standard on both drums.

#### CABLE PULLERS

A cable puller handles responsibilities related to pushing and pulling cables for electrical power systems through floors, walls, and ductwork. Their duties are to measure, cut, join, and install wires, panels, and junction boxes.

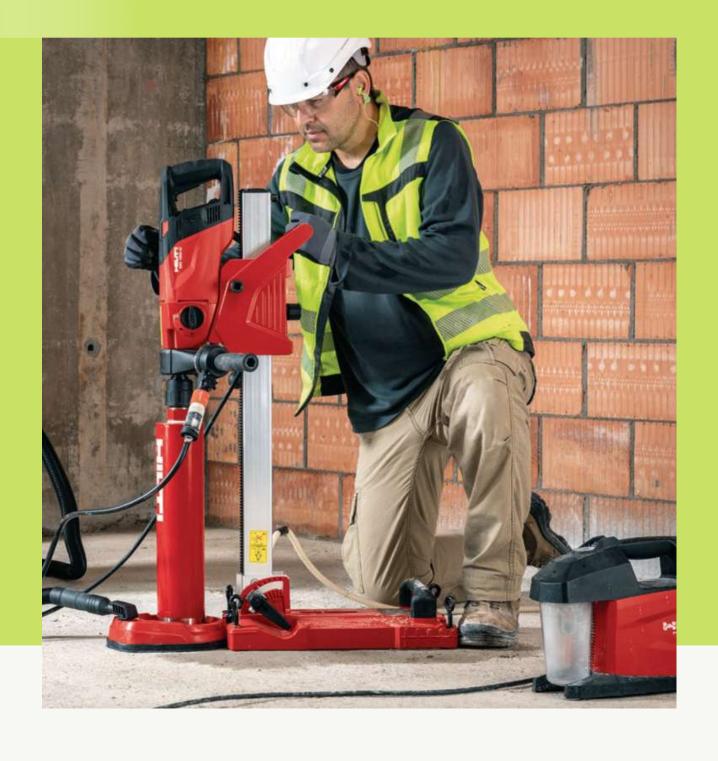

## VIBRATORY PLATE COMPACTORS

Single Vibratory Plate Compactor MODEL 1550 Wacker Neueson

Reversible Vibratory Plate Compactor MODEL 4550 Wacker Neuson

#### CORE DRILL

A core drill is a hollow, cylindrical drill that is used to make holes through a surface. It is made of metal, and the drill tips are usually coated with either diamond or carbide. A core drill is composed of a motor, handle, and drill bits. The main difference between a core drill and other cement cutting tools is that a core drill will extract a sample from the material.

A core drill can penetrate various surface types. It can cut cement, wood, rocks, and ice. It pushes through the surface with a twisting motion to create the hole

#### MATERIAL LIFT

This material lift — or contractor lift — is known for its strength, durability and size. Heavy-duty yet lightweight and portable, the material lift transports and lifts ducting, fiberboard, construction framework, roll-up doors, transformers, HVAC equipment, overhead piping, and more. The rear transport wheel assembly increases maneuverability, and it loads into a pickup truck.

Height: 24'

Load Capacity: 650 Pounds.

#### ROCKET BUCKET

- Grapples are a unique type of skid steer attachment with a wide variety of uses.
- They're perfect for landscaping, farming, construction, logging, road construction, and recycling applications.
- The best part is, a skid steer grapple can work with almost any type of material.

#### HYDRAULIC BRAKER HAMMER

Hammers have been designed to give you the
ultimate in versatility, reliability and efficiency.
Suitable for excavators, skid steers and backhoes,
and with a range of tool options, these hammers
make easy work of planting fence posts through to
demolishing concrete and rock, breaking asphalt
and pathways, and light quarry tasks.

#### AUGER 12" - 18" - 24"

• Suitable for excavators, skid steer loaders, telehandlers, backhoes and truck cranes, the Auger Torque augers can drill widths of 100mm on smaller machines and up to 2.4m on larger machines and can drill to depths of 12m (with extensions and using the correct earth drill).

#### BUCKET 12" - 18 - 24"

• Improved productivity, efficient digging, better material retention, and clean release of material.

#### CORE VALUES

#### GO THE EXTRA MILE

We are willing to do whatever it takes to accomplish the job...plus more. We strive to be a superstar, solving the problem quickly and cost efficiently; this drive separates us from the competition.

## PROVIDE FRICTIONLESS CONSTRUCTION EQUIPMENT SERVICES.

Furnish customers what they need, when they need it, within the agreed window, within the agreed budget, and with easy communication.

## PAY ATTENTION TO DETAILS AND HONOR COMMITMENTS

Details matter. We are laser focused on accuracy and precision. We double-check our work in order to get the details right. We stand behind our commitments, we are on time for all phone calls and meetings, and we do what we say we're going to do it!

### ANALYZE AND ANTICIPATE

We are passionate about anticipating your future needs to avoid potential problems before they occur. Our philosophy is that it is always more effective to foresee problems before they happen than to fix them after they occur.

## FANATIC ABOUT RESPONSE

People expect us to respond quickly. This includes our quick response to you that we heard your question, and we are "on it". This makes us stand out from the crowd.
